

TESTING SERVICES FOR PLAYGROUNDS

HELPING YOU WITH COMPLIANCE

Impact Attenuation

- Test from virtually any drop height
- Testing can be performed in any season
- Testing performed at your sites
- Confidential written results

Surface Accessibility

- Firmness and stability
- Slope, cross-slope and changes in level
- Accessible routes and maneuvering spaces
- Testing performed at your sites

We can come to your playgrounds with our test equipment and perform testing for impact attenuation and accessibility. We are trained and insured. Let us help you manage your risk and ensure your compliance.
